## GIFTS TO HUNT FOR

Everything's a double or big, that's GIFT HUNTER! Whatever you're spinning, it's double the fun or win. The KNIGHTLY PUPS, are here for you, they're on a roll to make this end of year, your best ever. Once you start spinning, the path to the bbbbbbiiigggg gift is already on, but beware, the KNIGHTLY PUPS are fighting off the ROGUE KITTENS. Each time the kitten symbols appear on the lower reels, on a line, they're one step closer, to sneaking away that big gift. That said, you can keep them away by spinning and hitting the PUP symbols on the upper reels! Also, the more you spin, the bigger the BIG GIFT becomes!

Both reels are loaded with SCATTERS that give free spins, and WILDs that hopefully switch to better symbols, but the real catch is in the constant battle between wins on the upper and lower reels. Alas, if your wins on the upper reel out-beat the lower, this would mean, that the BIG GIFT (that holds all wins from the lower reels) is yours to keep. What's the end of year without a nice gift or two? Will let you decide that. GIFT HUNTER also comes with a nice dose of free spins via the TRUCE bonus game, this is triggered with the SCATTERS and you also get to keep win's from both reels, when spinning the free rounds!
