

# SCATTER GALLERY

## A GALLERY OF OPPORTUNITY

The fair's in town. Pull that lever, and start placing the dice in the pinewood pigeon holes. That's not all, keep an eye on the 'framed' SCATTER BONUS SYMBOL dice. With each one landed, irrespective of pay lines, you shoot down a wrought iron duckling. Four ducklings are up for shooting. Shoot them all, and Scatter Fair's bonus game is triggered. Pull that lever, operator! Let's get the mechanical ducklings winding, we're at the fair for a reason, we want to go back home with that tasty Jackpot!

Collecting a hundred points gets you rolling, rarer dice even more, but it's the ducklings that need the shooting. Once they're all down - in the main game - the bonus round opens. It is here that you can land a real win. Wins are all guaranteed, whether it's cash points, free mystery games, extra shots or one of the three tasty jackpots! The AIM & SHOOT BONUS GAME will end once you've run out of available shots, or reached the max possible of 25 shots. Once the bonus game is over, the total final points are added to your main game pot.
