

WANDERING DEVOURER

DEVOUR SPINS FOR A GALACTIC WIN!

Let the devourer go wild, trigger cascades, multiply multipliers and make way for your next stellar win! If you played sister slot, THE DEVOURER, you are sure familiar with the legendary black hole - the WILD DEVOURER - and its astronomical multipliers, scatters that shoot free spins and galactic paybacks. This time round, the Devourer is a wanderer that's on the prowl, and it's even wilder, it devours symbols to give you increased multipliers, 5000x and celestial win lines that will once again push your payday to the stars!

Astronomical wins are the only way in this game. Imagine moving wilds, that trigger further wins on each move by triggering new win lines, but also making way for new cascades that trigger new multipliers. Multipliers, that add up, and after the final move, the total wild multiplier is applied to the bet! With such multi-level game mechanics, on the same round, it makes you wonder what your next win will be like! This is not all, win opportunities when playing the WANDERING DEVOURER are as infinite as the galaxy that surrounds us. No need to travel light years, just press the play button and you're done. This time you can keep your eyes on the 'FREE' scatter symbol, with each tri-appearance, come free spins!
